

**212047/21**

It is hereby confirmed that the WPC profiles

## **BRUGGAN MULTICOLOR**

**Made of WPC based on Polyethylene and wood**

of the manufacturer

**Woodplast Company**  
Shota Rustaveli Street 20  
61001 Kharkiv  
UKRAINE

According to the results of the test report no. 212047/21 of the accredited testing laboratory

**SKZ - Testing GmbH**  
Friedrich-Bergius-Ring 22  
97076 Würzburg  
GERMANY

meet the specifications for decking profiles and tiles  
made from cellulose-based materials and thermoplastics  
(usually called wood-polymer composites (WPC) or natural fibre composites (NFC))

**DIN EN 15534-4: 2014-04**

The manufacturer is therefore entitled to label the WPC profiles according to DIN EN 15534-4, section 5

**EN 15534-4 PE W60 UC3 <sup>1)</sup>**

<sup>1)</sup> Resistance to biological attack must still be proven by the manufacturer.  
Additional properties may still have to be proven by the manufacturer

The certificate confirms the compliance with the standard  
of the products tested in the above-mentioned test report.

Würzburg, August 10<sup>th</sup> 2021

i. V.

Dipl.-Ing. Hans-Peter Krause  
Head of Testing Certification body
