Bruggan

INNOVATIVE WOOD

Bruggan Multicolor

Our company is the first to create a realistic imitation of the annual wood rings. This gives Bruggan decking an almost identical look to natural wood and allows it to be used like natural wood - to be cut, sanded, and processed.

Feel the warmth of the wood under your feet as you walk barefoot on the Bruggan plank deck.

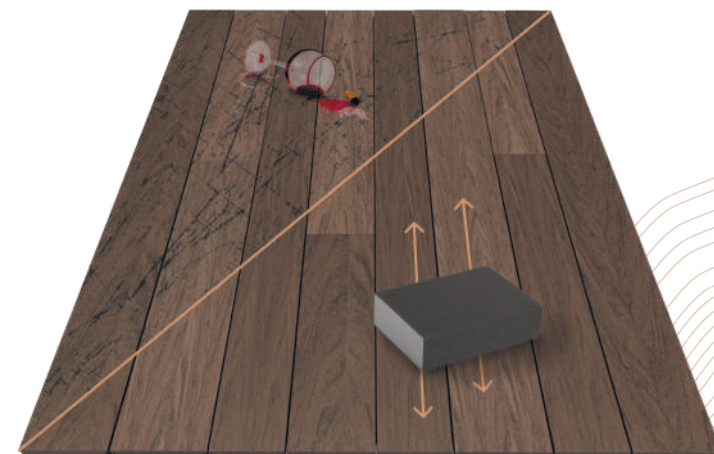

TERRACE BOARD Bruggan Multicolor

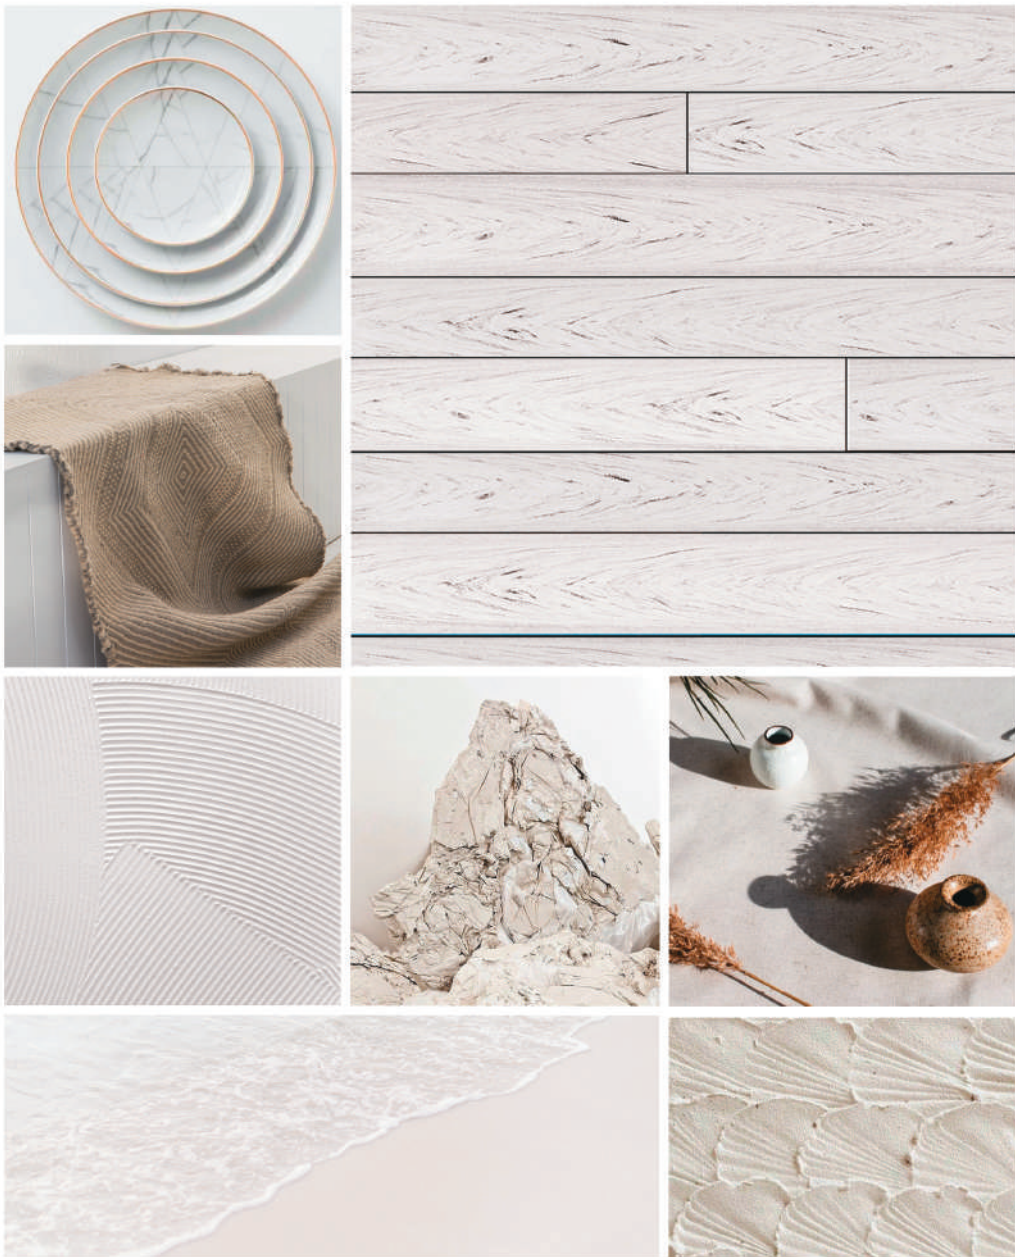

HAS A RENEWABLE SURFACE

If necessary, any scratch or stain can be removed using regular sandpaper.

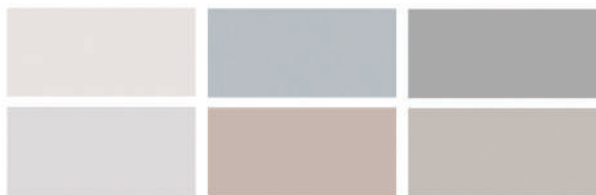

Even after years of daily use, the terrace will look like new.

Therefore, the Bruggan board is suitable for use in parks, cafes, and other crowded places.
